ENTERTAINMENT outlets are backing the Designated Driver Program as the silly season pushes transport demands to the max.

Eighteen licensed venues across the region take part in the Liquor Industry Action Group initiative to encourage drivers not to drink and drive.

Caboolture Sports Club assistant manager Craig Allan

said clubs across the district would continue to reward designated drivers with free soft drink when they registered for the program.

"Our aim is to ensure patrons get a safe passage home," he said.

"This time of year is significantly more important. There are more people using licensed venues and transport is in demand.

"We believe this is a potential way to alleviate some of those problems."
